GWAII TRUST SOCIETY

Notes to Financial Statements
Year ended August 31, 2006

1. Purpose of the organization

The Gwaii Trust Society was incorporated on September 16, 1994 under the Society Act of British Columbia. The Society was established to advise and assist, economically and socially, the communities of Haida Gwaii/Queen Charlotte Islands. The Federal government awarded the Society a grant of \$38.2 million in 1995 to assist the Society to achieve these objectives.

The Society is a non-profit organization under the Income Tax Act and accordingly is exempt from income taxes.

2. Significant accounting policies

(a) Basis of accounting

The Gwaii Trust Society follows the deferral method of accounting for contributions. The financial statements have been prepared in accordance with the recommendations for not-for-profit organizations found in Section 4400 of the CICA handbook.

(b) Revenue recognition

Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Endowment contributions are recognized as direct increases in net assets.

Restricted investment income is recognized as revenue in the year in which the related expenses are incurred. Unrestricted investment income is recognized as revenue when earned.

(c) Investments

Trading investments, comprising of Canadian treasury bills and certain bond issues, are purchased for resale over a short period of time. These are stated at the lower of cost and market value determined on a portfolio basis.

Portfolio investments are purchased with the original intention to hold the securities to maturity or until market conditions render alternative investments more attractive. Mortgages and equities are stated at cost while bonds are stated at amortized cost. Premiums and discounts on bond purchases are amortized using the straight line basis over the period to maturity of the related bond. Gains and losses on disposal of securities are calculated on an average cost basis.

Investment carrying values are adjusted to market value only where a permanent decline in value has occurred.

(d) Property, plant and equipment

Property, plant and equipment items are recorded at cost and amortization is calculated annually, using the following rates and methods:

Computer equipment	30% declining balance
Furniture and fixtures	20% declining balance

During the year the Gwaii Trust realigned the investment portfolio to take advantage of new investment opportunities. In order to accomplish this, certain securities were sold and the proceeds reinvested in international markets. The gains realized on the sale of these securities had accrued over the time since the inception of the Fund and are not directly attributed to market activity during the current year. While the realignment of the portfolio has resulted in a significant increase in the historical cost of the portfolio, there has been no immediate affect on the market value.
